This permit request must be completed and submitted to the Highway Superintendent for any work being done within the Town of Barrington right of way. This includes projects such as steps, posts, rocks, fences, walls, landscaping including the placement of trees, flowers, etc. and also applies when a building permit is granted for construction of buildings where equipment and/or materials will be in the right of way. Please realize that the approval of this application does not grant the right of the property owner to construct a building and/or structure.

The town right of way is typically measured as follows:

1. The Lower Lake Road- 25 feet from the center of the road
2. Town Roads- 50 feet from the center of the road
3. County & State Roads- 33 feet from the center of the road

There may be exceptions to these measurements. Applications should always confirm with the town highway superintendent the exact measurements for their particular situation.

Please attach to this form:

1. A detailed drawing of the work to be done which includes the specific materials to be used, the time frame in which the work will be done and the complete scope of the project as well as a list of the equipment being used on the job.

The following is also required:

1. Men working signs must be put up during working hours.
2. Any hazardous situation must be attended at ALL TIMES.
3. You may not stop the flow of traffic. If one lane needs to be blocked a flagger must be used at ALL TIMES.
4. Equipment and material can not be left unattended in the right of way.
5. The permit holder is responsible for any accidents, injuries, fees or fines during or after the project that result from the project.
6. The permit holder must abide by all State, Federal and NYSDEC laws.
7. The permit holder will be held accountable for any damage to the Town right of way that is a result of the project.
8. The permit holder must give the highway superintendent forty eight (48) hours' notice before beginning an approved project.
9. NO changes may be made to this permit unless they are submitted in writing and approved by the highway superintendent.
